

Innovation Cabinetry, LLC warrants to the original residential end-user that Ready to Assemble “RTA” cabinetry products shall be free from defects in material and workmanship under normal use for a period of ten (10) years from the date of shipment and that all hardware products shall be free from defects.

This warranty is only applicable to RTA products used in residential applications within the United States and is nontransferable to subsequent end-users or owners. Should defects in material exist or occur during the warranty period Innovation Cabinetry, LLC will elect, at its sole discretion, to either (1) repair or replace the defective component free of charge to the end-user or (2) refund the purchase price of the defective component. This warranty covers only materials and components of RTA products supplied by Innovation Cabinetry, LLC. This warranty does not cover costs or labor to remove and reinstall counter tops, appliances, plumbing fixtures, electrical outlets, etc.

This warranty shall become void if the cabinets are in any way modified, improperly installed, or damaged before or during the installation process. This warranty shall become void if used in any application other than the standard uses for residential cabinetry. Furthermore, this warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of God, exposure to moisture, exposure to extreme temperatures, superficial cracks in paint at the wood joints caused by the natural expansion and contraction of components, or the effects of normal wear and tear.

Natural woods vary in color and characteristics and exhibit subtle changes as they age. Sunlight, smoke, household cleaners, and other environmental conditions may also affect the color match over time. These variations are considered the nature of the materials in relation to their environment and exposures and are not covered under this warranty.

Innovation Cabinetry, LLC reserves the right to alter design, specifications, and material without obligation to make similar changes to RTA products previously manufactured. The repair(s) or replacement(s) is contingent upon the current RTA product offerings of style and construction options within the Innovation Cabinetry, LLC RTA product line at the time of the warranty claim. If a warranty claim is filed after an RTA product becomes obsolete, Innovation Cabinetry, LLC reserves the right to honor the warranty in one of the following fashions:

To replace the affected component with a new component of the same style.

To replace the affected component and any other component(s) in the residential application to achieve a reasonably uniform appearance with a similar and comparable RTA product style of the originally purchased style. Refund the purchase price of the defective component.

If cabinetry components are replaced, Innovation Cabinetry, LLC cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the components in the existing residential application. This is due to natural variations and changes during the woods' natural aging process, affecting its color and grain.
