DESIGN

Innovation Cabinetry carefully crafts our selection of cabinetry using only the most desirable designs and colors. As a result, our cabinet collections are unsurpassed in their beauty, form, and function.

QUALITY

Engineered using premium materials and constructed to the highest industry standards, we strive to provide quality you can trust. We proudly stand behind our products and your investment.

SAFETY

While style and strength are essential, they are nothing without ensuring safety. Our products are Carb2 Compliant, meeting and exceeding strict standards set for formaldehyde emissions. As a family-owned business, we believe a healthy family is a happy family.

INNOVATION CABINETRY

We are an American company headquartered in Tampa, Florida. We source and distribute high-quality cabinetry for designers, contractors, and builders. Our mission is to ensure our products are expertly crafted to last a lifetime.

DIAMOND DIFFERENCE

Style, strength, and safety are the hallmarks of our Diamond Difference. We uphold these high standards to ensure the cabinets you receive are beautiful, functional, and will last a lifetime.

- 1 SUSTAINABLY SOURCED PREMIUM WOOD**
Each piece of Innovation Cabinetry is constructed of premium wood legally harvested from certified forests. Sustainably sourced prime timber not only fulfills our commitment to quality materials but exemplifies our sense of responsibility to the environment. You can see the premium character in the natural, never-bleached surface of every cabinet we create.
- 2 A FINISH THAT'S COMPLETE**
A performance or product is only complete once it has received that perfect finishing touch. From the faces of our cabinets to the matching interiors, every Innovation Cabinetry product receives our multi-step finishing process to ensure a beautiful, lasting surface for your home. We use the highest quality materials on the market, including Sherwin Williams paints, followed by a UV finish to prevent fading and provide superior scratch resistance.
- 3 CONCERN FOR YOUR HEALTH**
Innovation Cabinetry designs our products with homeowners in mind. While style and strength are essential, they are nothing without ensuring your safety. Our products are CARB2 compliant, meaning they have met and exceeded the strict standards for formaldehyde emissions. We are continually refining our production process to provide the cleanest possible products for your home.
- 4 THE SOUND OF SILENCE**
Sometimes the thing that matters the most is what's missing. With soft-close hinges and soft-close under-mount drawer glides, there won't be any slamming doors or rattling dishware. Our soft-close hardware uses natural oils to provide the effect instead of components easily broken after repeated uses. These superior hinges and glides are standard on all of our products.
- 5 IMPECCABLE STYLE, EXPANSIVE STORAGE**
No matter which style of cabinet you choose, you'll be enjoying a frameless interior that provides more storage than standard framed cabinets. Drawer space is higher and deeper, and both base and wall cabinets provide 15% more storage space without the additional lip that framing requires.
- 6 QUALITY TESTED, THEN TESTED AGAIN**
Without function, form is irrelevant. The functionality of our cabinets has been proven. Our soft-close glides have been tested over 50,000 times. Our 6-way adjustable hinges have been tested twice that many, the equivalent of two lifetimes of use.
- 7 STRENGTH OF SUBSTANCE AND STRUCTURE**
Innovation Cabinetry believes in not just meeting standards but exceeding them. Our furniture-grade wood components are all 3/4", fifty percent thicker than the industry standard. We provide metal corner brackets to ensure strength and stability in all of our base cabinets. Dovetail joints, dado channels, and dowels offer security between interlocking parts and are a beautiful example of the exquisite craftsmanship behind our cabinetry.

STANDARD FEATURES

Multi-layered finished doors have a solid wood frame and MDF center panel. MDF center panel minimizes expansion and contraction for minimal cracking.

Mortise and tenon door and drawer joints for robust and durable construction

The 6-way adjustable soft-close hinges allow doors to close silently and smoothly.

18" adjustable, 3/4" thick plywood shelf has six finished sides and four metal shelf clips to withstand heavy items

Full access frameless cabinets allow for ample storage.

Interior metal support brackets reinforce corners and create a stable and long-lasting foundation.

Solid wood drawer construction with four corner dovetail joints, the strongest joints used in cabinetry.

Concealed under-mount drawer glides have full extension for easy access to the deepest part of the drawer.

Interior and exterior finishes match for a flawless look.

The 3/4" furniture-grade box panel construction is 50% thicker than industry standards.

Concealed quick-release door hinges for swift and easy door removal for complete access.

KMCA compliant meets and exceeds high industry standards. See page 40 for more information.

Carb 2 compliant certified to meet reduced emission standards for a safe environment. See page 40 for more information.

CRAFTSMAN COLLECTION SHAKER WHITE

- Shaker-style frameless cabinets with minimal detailing and a low profile
- Five-piece, solid wood frame doors have a robust mortise and tenon construction

INFORMATION

DISCLAIMER FOR PAINTED WOOD CABINETS

Please be aware that wood expands and contracts. When this natural process occurs on painted cabinetry, it will create an open joint in the painted finish. An open joint line is not a defect, and it is known and accepted in the cabinet industry. The finish will still protect the surface, and the joint's structural integrity will not be affected. Every manufacturer of painted all-wood cabinets shares these issues. They are not unique to Innovation Cabinetry. Wood may expand and contract differently from cabinet to cabinet. Even joints within the same cabinet may behave differently. Some joined wood may not show any joint lines, others may be slightly visible, and others may display visible joint lines on day one of installation.

Joint lines also may occur due to the repeated impacts from regular, everyday use. To avoid damage to an exposed open wood joint due to water or heavy moisture exposure, remove any excess moisture from cabinet surfaces as soon as possible. Discolorations: All paints, especially lighter colors, are susceptible to discoloration due to airborne particles from cooking, grilling, tobacco smoke, fireplaces, or candles. Prolonged exposure to natural or artificial light may also alter the finish color.

DISCLAIMER FOR STAINED WOOD CABINETS

All wood is a product of nature. While each wood type grows best in specific conditions, nature provides differences critical to the growth. As a result, soil and weather conditions will affect grain patterns and colors. The beauty of real wood is created by the infinite variation of grain, texture, and color.

This is especially true of hardwood and hardwood veneers. It is the nature of hardwoods to have mineral streaks and significant variation in graining. Colors range from light brown, dark brown and even black areas in the wood. Since the number of mineral lines varies from board to board, you may notice the difference between cabinets, doors, drawers, or even on the same panel. Mineral streaks or unusual graining are considered natural wood characteristics and will not be considered a defect or reason for replacement.

No particular emphasis is made to select materials to match each color. All color characteristics of the wood will change as it ages. This aging process will gradually change the color of the wood and the stain. The amount and rate of change will depend on many factors, including wood-type, stain color, and direct sunlight. Also, exposure to smoke, chemicals, and indoor lighting may cause some materials to vary from their original color over time. The softening color change is why cabinets or accessories added later may not match precisely to the previously installed cabinetry.

For this reason, door samples and displays may not be the same color as the cabinets you receive. Innovation Cabinetry cannot be responsible for the naturally occurring changes in your wood cabinets.

GENERAL CARE

A soft cotton cloth dampened with warm water is usually sufficient to clean your cabinets. If more thorough cleaning is required, use one of the following cleaning solutions:

- A fresh solution of mild dish washing liquid mixed with warm water.
- A mild all-purpose cleaner that does not contain ammonia or silicone.

Use the mildest cleaning solution available to clean your cabinets successfully. Stronger products may damage or discolor your cabinet finish and void your warranty. After cleaning, dry immediately using a clean/ dry cotton cloth.

CLEANING PRODUCTS TO AVOID - Avoid using the following cleaning products on your cabinets:

- Harsh chemicals
- Abrasive cleaning products include tub/ sink cleansers, scouring powder, scouring pads, or steel wool.
- Sponges or dish cloths. (They may contain particles that could scratch your cabinets or stain food or oil residue)
- Ammonia or ammonia-based cleaning products.
- Bleach or bleach-based cleaning products.
- Silicone-based cleaning, waxing, or polishing products.

SPLATTERS AND SPILLS - Clean spills and splatters immediately. Prolonged exposure to spills, including food, water, or other liquids, or to oil and grease splatters can cause permanent discoloration or damage to your cabinet's finish.

REGULAR DUSTING - Use a clean/ dry soft cotton cloth for regular dusting. Do not use pre-moistened dusting sheets or aerosol products made for dusting.

CLEANING GLASS DOORS - Extra care is required when cleaning glass doors. Spray an ammonia-free glass cleaner on a clean cotton cloth or paper towel. Do not spray cleaner directly on the glass. The spray could run or seep behind the frame or mullions and cause damage.

WAXING & POLISHING - Waxing is not recommended. Over time, waxing and polishing compounds may build up on the surface of your cabinet, causing a hazy, streaky, or yellowed appearance to your cabinet's finish.

SCRATCHES, GOUGES & NICKS - Touch-Up Kits are available to hide surface damage. Contact Innovation Cabinetry to purchase the color-matched touch-up kit for your cabinets. Use the kit's touch-up pen to hide minor blemishes. Use the kit's tinted putty to fill deeper scratches, gouges, or nicks.

AVOID MOISTURE DAMAGE - Avoid draping damp clothes or dish clothes over cabinet doors. This moisture can cause permanent damage, including but not limited to peeling and discoloration of the cabinet's finish.

AVOID LIGHT DAMAGE - Exposure to direct sunlight tends to darken the color of natural wood products. Sunlight can also fade painted wood surfaces. Consider using draperies or blinds to protect your cabinets from direct sunlight.

AVOID HEAT DAMAGE - The heat generated when using an oven's self-cleaning feature is much greater than the heat of regular cooking. If this heat escapes from the oven, it can damage your cabinets. While this is a rare circumstance, you can minimize the risk of cabinet damage by removing cabinet doors and drawers nearest the oven before using its self-cleaning feature.

WARRANTY & RETURNS

TEN-YEAR LIMITED

Innovation Cabinetry, LLC warrants to the original residential end-user that cabinetry and all hardware products shall be free from defects in material and workmanship under everyday use for ten (10) years from the date of shipment. This Warranty is only applicable to products used in residential applications within the United States and is nontransferable to subsequent end-users or owners. Should defects in material exist or occur during the warranty period, Innovation Cabinetry, LLC, at its sole discretion, will either (1) repair or replace the defective component free of charge or (2) refund the purchase price of the defective component. This Warranty covers only materials and components of products supplied by Innovation Cabinetry, LLC. This Warranty does not cover costs or labor to remove and reinstall countertops, appliances, plumbing fixtures, electrical outlets, etc. This Warranty shall become void if the cabinets are in any way modified, improperly installed, or damaged before or during the installation process. This Warranty shall become void if products utilized in any application other than the common uses for residential cabinetry. Furthermore, this Warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of God, exposure to moisture, exposure to extreme temperatures, or the effects of normal wear and tear. Natural woods vary in color and characteristics and will exhibit subtle changes as they age. Sunlight, smoke, household cleaners, and other environmental conditions may also affect the color over time. Color and wood characteristics are considered the nature of the material related to their environment and exposures and not covered under this Warranty. Innovation Cabinetry, LLC reserves the right to alter design, specifications, and material without obligation to make similar changes to products previously manufactured. The repair(s) or replacement(s) is contingent upon the current product offering of style and construction within the Innovation Cabinetry, LLC product line at the time of the Warranty claim. If a warranty claim is filed after a product becomes obsolete, Innovation Cabinetry, LLC reserves the right to honor the Warranty in one of the following fashions:

- To replace the affected component with a new component of the same style.
- To replace the affected component and any other component(s) in the residential application to achieve a reasonably uniform appearance with a similar and comparable product style of the originally purchased style.
- Refund the purchase price of the defective component. Innovation Cabinetry, LLC cannot guarantee that these replacements will match the original components' finish and appearance in the residential application. This is due to natural variations and the changes that occur during the woods' natural aging process, affecting its color and grain.

THE LIMITED WARRANTY IS THE EXCLUSIVE WARRANTY OF INNOVATION CABINETRY, LLC. THIS LIMITED WARRANTY IS EXTENDED IN LIEU OF AND

TO THE EXCLUSION OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL INNOVATION CABINETRY, LLC'S LIABILITY EXCEED THE BUYER'S PURCHASE PRICE. THE LIMITED WARRANTY RUNS ONLY TO THE ORIGINAL END-USER OF THE PRODUCTS. THE LIMITED WARRANTY IS NOT INTENDED TO, AND DOES NOT, RUN TO ANY SUBSEQUENT BUYER OR END-USER, NOR TRANSFERRED TO ANY OTHER PERSON, UNLESS OTHERWISE SPECIFICALLY STATED IN WRITING BY AN OFFICER OF INNOVATION CABINETRY, LLC. IN NO EVENT SHALL INNOVATION CABINETRY, LLC BE LIABLE TO THE END-USER OR ANY THIRD PARTY FOR SPECIAL, COLLATERAL, INCIDENTAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES.

This Warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not exclude or limit incidental or consequential damages, so the above limitations or exclusions may not apply. To make a warranty claim, you must first contact your authorized Innovation Cabinetry, LLC dealer, contractor, or distributor, who will arrange for an inspection of the cabinetry products. Innovation Cabinetry, LLC must verify the date of purchase and products purchased to extend the Warranty's benefits. It is highly recommended you retain receipts for product purchases. Thank you for your purchase of Innovation Cabinetry, LLC's high-quality cabinetry products! We trust that our products will bring you many years of outstanding service and appearance.

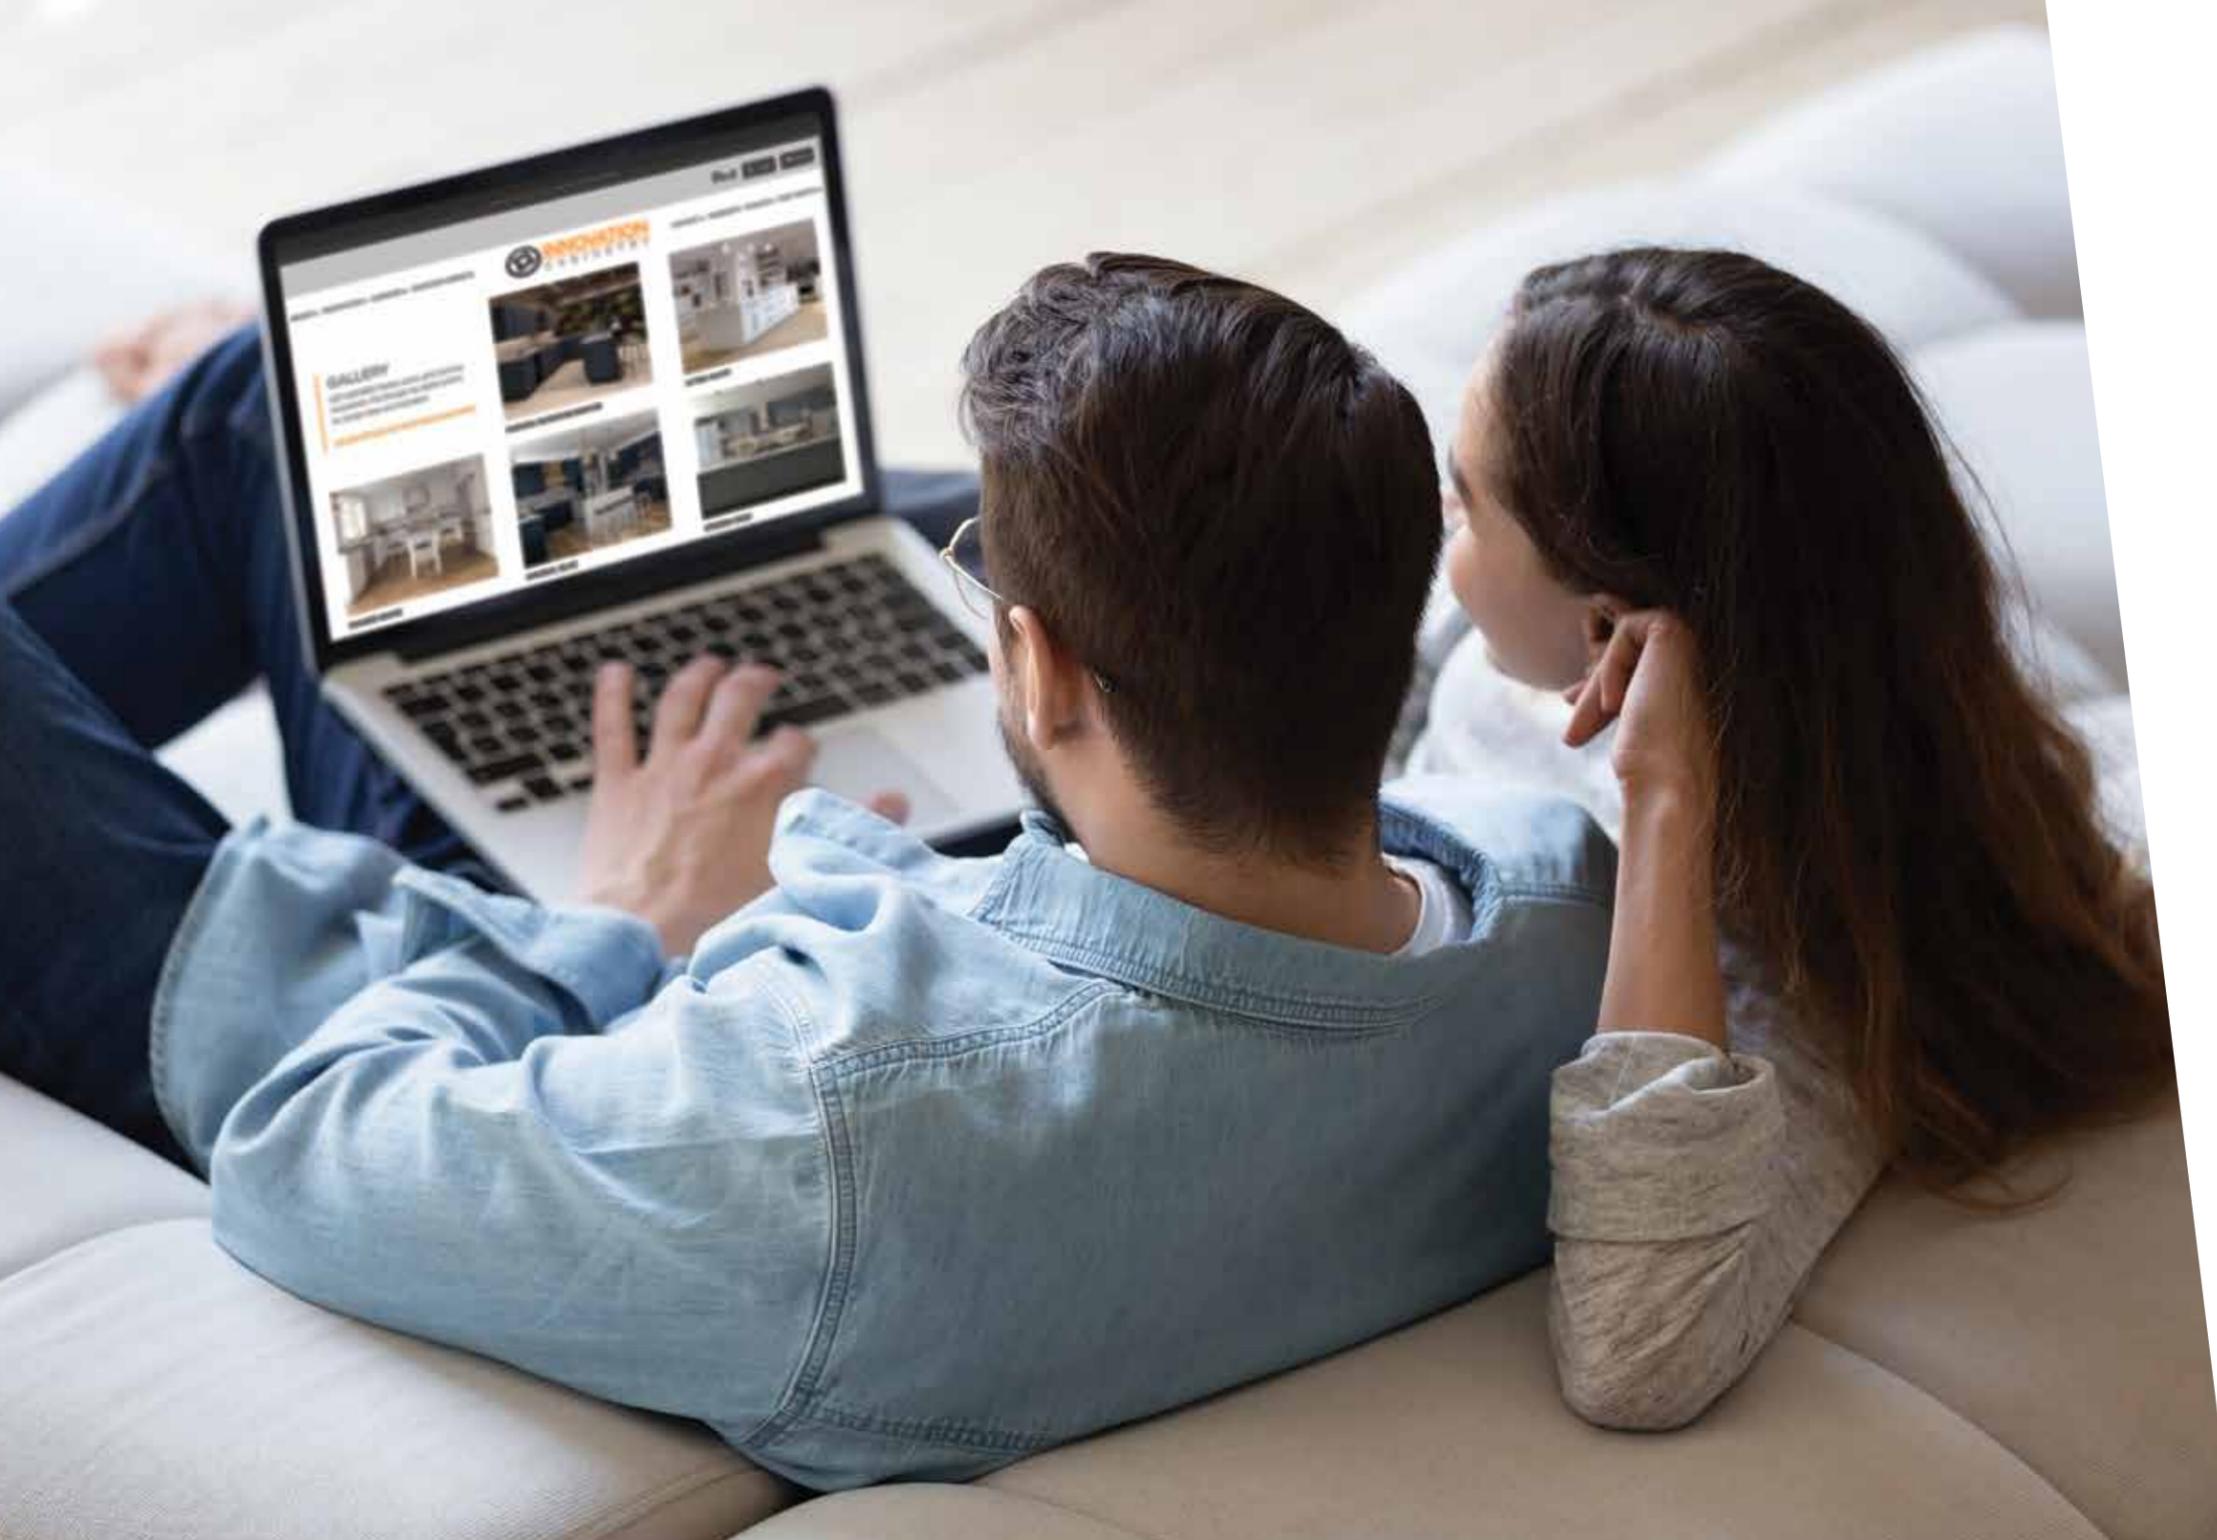

RETURN POLICY

Returns or exchanges must be made within 30 days from the sales order/invoice date, accompanied by a valid Innovation Cabinetry sales order/invoice. Innovation Cabinetry must inspect returns or exchanges before its acceptance for return.

Cabinets must be returned in their unopened, original boxes. Boxes cannot be wet or damaged and must be free of dirt, paint, markers, etc. All hardware must be in its original packing.

Hardware must be free from scratches, dirt, paint, markers, etc. Customized or assembled cabinets cannot be returned under any circumstance. Products damaged in transit shipped by F.O.B. Innovation's warehouse through a freight company cannot be returned to Innovation.* Innovation Cabinetry reserves all rights to refuse to accept any item for return or refund.

* Note: To claim loss and damage in transit of products shipped by F.O.B. please refer to Innovation's Transportation Policy and the freight company's claim procedures.

CUSTOMER CARE

FOR THE HOMEOWNER

InnovationCabinetry.com

Our website offers many ways to inspire organizational solutions in beautiful cabinetry. Highlights include:

- View inspirational designs and photos
- Visual details of door by style
- Consumer education about wood characteristics, installation, the Diamond Difference, and do's and don'ts of cabinetry care

FOR DESIGNERS AND DEALERS

InnovationCabinetry.com

If you're not currently registered for InnovationCabinetry.com, you could be missing important product and brand information. It's quick and easy, so visit the site and register today. It will enable you to:

- Place an order
- Download or order product literature, like the product brochure, specification, and price books, ProKitchen and 2020 Design updates
- Order color swatches and door samples, and more from the shopping cart

INNOVATION CABINETRY CUSTOMER CARE RESOURCES

Electronic means are convenient, but sometimes you just need to talk to a person. At Innovation Cabinetry every account may be assigned a Sales Account Manager who are there to help. Your Sales Account Manager can:

- Place an order
- Follow up on orders or track delivery progress
- Discuss product situations or address invoice questions

Additional assistance is available through Customer Service:

Tampa: 888.206.1088;

Dallas: 888.290.9770

or customerservice@innovationcabinetry.com

Your Innovation Cabinetry Sales Account Manager is there to help you every step of the way. Make sure to contact them whenever you have questions, concerns, or need information.

Formaldehyde emissions comply with requirements of 24 CFR, Part 3280 (August 9, 1984), the HUD rule on Manufactured Home Construction and Safety Standards and 29 CFR Part 1910 (May 27, 1992), the OSHA rule on Occupational Exposure to Formaldehyde. Formaldehyde emissions for raw engineered wood is restricted to 0.3 parts per million. In keeping with our policy of continuous refinement, Innovation Cabinetry, LLC reserves the right to alter specifications and styles without general notice or obligation to make similar changes in products previously manufactured.

Innovation Cabinetry carries the seal of the Kitchen Cabinet Manufacturers Association (KCMA) Certification Program, which assures that our cabinets meet or exceed the rigorous standards set by the American National Standards Institute (ANSI).

We are a proud member of the National Kitchen & Bath Association (NKBA) a non-profit trade group that promotes professionalism in the kitchen and bath industry.
